Fund description

**Domestic equity product. The objective of this subfund is long-term growth (min. 3 years) in the assets' value per unit, higher than for the WIG index.** The objective is neither guaranteed by the fund nor the Company nor any other third party.

The Subfund is characterized by a high level of investment risk.

The Subfund primarily invests in Equity Instruments and implements its investment policy by allocating funds mainly to **shares of companies listed on the Warsaw Stock Exchange (WSE)**, including medium and small-cap companies. The remaining portion of the Subfund's assets is invested in Debt Instruments, primarily those issued, guaranteed, or endorsed by the State Treasury, the National Bank of Poland, or public companies. The Subfund may also invest its assets in other financial instruments, subject to applicable limits.

**The share of equities ranges from 50% to 100% of the subfund's assets.**

The Subfund may be used to achieve high rates of return during good market conditions, or as a component of a diversified investment fund portfolio customised to the Investor's investment profile.

**The Subfund is a product referred to in Art. 8 SFDR (Regulation of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector), promoting environmental and social aspects.**

For the calculation of the performance fee, the subfund uses the model with reference to the WIG benchmark, which is consistent with the actual investment policy of the Subfund. This means that the performance fee may be charged only in the event of achieving a relatively higher rate of return than the benchmark, ultimately in a 5-year reference period. In addition, the relative losses previously incurred in the reference period must be recovered before the performance fee is charged. The performance fee is 20%. The performance fee may only be charged once per calendar year, also in the case of a nominal loss after breaking the benchmark.

The Subfund Agresywny (QUERCUS Aggressive) hereinafter referred as the subfund described in this document is the subfund of the QUERCUS Parasolowy SFIO umbrella fund. Information concerning QUERCUS Parasolowy SFIO and its subfunds, including detailed descriptions of investment policy, risk factors, are provided in the Prospectus and Key Investor Information Document available at the Quercus TFI S.A. office and at its website: [www.quercustfi.pl](http://www.quercustfi.pl).
