Fund description

A domestic bond product, investing mainly in treasury bonds. This subfund's investment objective is the achieve in a medium-term horizon **return higher than for the Treasury Bond Spot Poland index.** This subfund, the Company, or any other third party, however, does not guarantee the achievement of the above mentioned goal.

The Subfund pursues its investment policy by investing assets mainly **in debt securities, issued, endorsed or guaranteed by The Polish State Treasury or The National Bank of Poland**. The subfund may also invest in other Debt Instruments, Deposits and Shares.

The Subfund is dedicated to investors who plan to invest with a medium-term investment horizon, i.e. for a period of at least 1 year, expect investment results comparable to or higher than the Treasury Bond Spot Poland benchmark, expect a medium level of investment risk, including accepting the risk related to investments in Treasury Debt Instruments (including fixed-rate instruments), in particular a higher level of risk in periods of rapid increases in interest rates.

This subfund may be used during times of correction on the equity market or as a medium risk component of diversified investment portfolios in the medium-term perspective. It is dedicated to investors with medium risk tolerance, expecting high liquidity.

For the calculation of the performance fee, the subfund uses the model with reference to the TBSP Index benchmark, which is consistent with the actual investment policy of the Subfund. This means that the performance fee may be charged only in the event of achieving a relatively higher rate of return than the benchmark, ultimately in a 5-year reference period. In addition, the relative losses previously incurred in the reference period must be recovered before the performance fee is charged. The performance fee is 20%. The performance fee may only be charged once per calendar year, also in the case of a nominal loss after breaking the benchmark.

The Subfund Obligacji Skarbowych (QUERCUS Treasury Bonds) hereinafter referred as the subfund described in this document is the subfund of the QUERCUS Parasolowy SFIO umbrella fund.
