

October 2023

Investor's Profile

The Subfund is dedicated for Investors who plan to invest in a long-term investment horizon (at least 3 years), expect investment results comparable to or higher than the WIG benchmark and accept a high level of investment risk related to investments in Equity Instruments. Investors must take into account the possibility of fluctuations in the value of their investments, especially in the short term, including the possibility of losing a significant part of the amount invested.

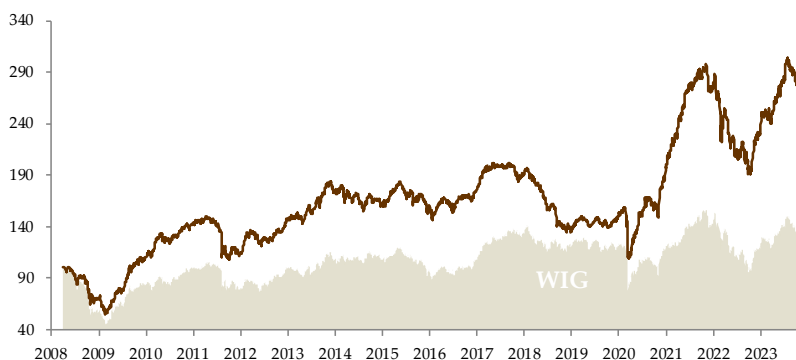

Subfund's strategy

The objective of this Subfund is dynamic long-term growth in the assets' value per unit, higher than for the WIG index. The objective is neither guaranteed by the fund nor the Company nor any other third party. The risk level of investing in the Subfund is high, even higher than in traditional equity funds. The Subfund pursues its investment policy by investing assets mainly in the shares of companies listed on the Warsaw Stock Exchange.

A high concentration of investments is acceptable, including large exposures in securities with limited liquidity, representing significant value growth opportunities. Please note that the Subfund may be managed more aggressively but also in a more flexible manner than traditional equity funds. The Subfund is a product referred to in Art. 8 SFDR (Regulation of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector), promoting environmental and social aspects.

The Subfund may be used to achieve high rates of return during good market conditions, or as a component of a diversified investment fund portfolio customised to the Investor's investment profile.

The benefits of investing in subfund's units are related to the occurrence of risks, including the risk of failure to achieve the expected return on investment and the occurrence of circumstances beyond the control of the fund participant, e.g. operational risk, inflation, liquidity of investments, liquidation of the fund and risk related to changes legal regulations. The risks related to the investment policy include: market risk, credit risk (including settlement risk), risk related to investing in derivative instruments, concentration risk, and liquidity risk. In addition, there may be specific risks inherent in these subfunds only. In order to correctly assess the risk arising from investing in the Subfund's participation units, please read the investment policy, a full description of the risks and the description of the investor's profile. This information is included in the QUERCUS Parasolowy SFIO Prospectus and the Key Information Document available on the website www.quercustfi.pl.

This is a marketing communication. The Subfund Agresywny (QUERCUS Aggressive) hereinafter referred as the subfund described in this document is the subfund of the QUERCUS Parasolowy SFIO umbrella fund. Information concerning QUERCUS Parasolowy SFIO and its subfunds, including detailed descriptions of investment policy, risk factors, are provided in the Prospectus and Key Information Document available at the Quercus TFI S.A. office and at its website: www.quercustfi.pl. Neither Quercus TFI S.A. nor QUERCUS Parasolowy SFIO shall guarantee the achievement of expected investment targets or the gaining of specified investment results described in this document. The subfund's risk profile presented in this document has been determined on the basis of the methodology used in the Key Information Document. Clients of QUERCUS Parasolowy SFIO should consider the capital venture risks of some invested financial sources. Information presented hereinbelow shall not be deemed as an information recommending or suggesting an investment strategy, or an investment recommendation, within the meaning of Regulation (EU) No 596/2014 of the European Parliament and of the Council of 16 April 2014 on market abuse (market abuse regulation) and repealing Directive 2003/6/EC of the European Parliament and of the Council and Commission Directives 2003/124/EC, 2003/125/EC and 2004/72/EC. The net asset value of the subfund, may fluctuate considerably owing to the fact of investing the assets of the subfunds in shares and derivative instruments. QUERCUS Parasolowy SFIO can invest over 35% of the asset value in securities which are issued or guaranteed by the Polish State Treasury or the National Bank of Poland. Presented investment performance is calculated for the A class of the subfund's participation units for the given period of time. Neither Capital Gains Tax nor fees related to purchasing the subfund's units have been included in the above mentioned results. Indicated rates of return should be treated as a historical data only and shall not guarantee similar results in the future. Individual rate of return depends on the date of purchasing and selling subfund's units, given fees and Capital Gains Tax. The value of the subfund's units and fee schedule is available at www.qtfi.pl. This material is a promotional only and is neither intended as an offer nor recommendation to buy or sell any financial instrument. Data and information above provided should not be treated as an investment advice or any other type of advice especially, legal advice. It is necessary to read the Prospectus and Key Investor Information Document before purchasing the subfund's units. Quercus TFI S.A. has a business license issued by the Polish Financial Supervision Authority (Komisja Nadzoru Finansowego), which is the supervisory authority for Quercus TFI S.A. This document has been written in Polish and English language versions, in two identical copies. In event of any discrepancies, the Polish version shall prevail.
