

Investor's Profile

The Subfund is dedicated for Investors who plan to invest in a long-term investment horizon (at least 3 years), expect high profits and accept a high level of investment risk related to investments in derivatives. Investors must take into account the possibility of fluctuations in the value of their investments, especially in the short term, including the possibility of losing a significant part of the amount invested.

Subfund's strategy

Commodity product. The aim of the subfund is to reflect changes of silver prices. This Subfund, the Company, or any other third party, however, does not guarantee the achievement of the above mentioned goal. The Subfund pursues its investment policy by investing in silver futures listed mainly on the COMEX market of the New York Mercantile Exchange. The rest of assets is invested in debt instruments. The Subfund may be used during periods of high probability of silver prices growth, when Investor would like to achieve exposure to that market. The risk level of investing in the Subfund is very high.
